PORT ARTHUR, Ont., Nov. 10.—A terrible marine disaster, resulting in the drowning of forty-eight persons and the loss of one of the most valuable passenger steamers on the lakes, was reported last night when the steamer Athabasca arrived. On board the Athabasca were James Moore, commander of the Canada Pacific railway steamer Algoma, two passengers and eleven of her crew. reaching Lake Superior, the wind began to freshen up from the northwest and as night approached the wind continued to increase in violence and by dark had developed into one of the fiercest and most destructive gales ever experienced on the upper lakes. Before midnight Lake Superior was lashed into a furious seething foam. A great sea swept completely over the struggling steamer. A blinding snow storm set in before morning and it was impossible to see the length of the steamer. The passengers and crew were terrified beyond measure. On Saturday morning the Isle Royal was sighted and Captain Moore headed the steamer for Rock harbor. Near the entrance there is a dangerous reef which the steamer struck and came to a full should begin with their evidence and stop. One of the crew reported that the bottom had been punctured and she was filling with water. The boats were at titions set fourth that the patent exonce got in readiness and all started to aminer who passed Bell's patent, was leave the steamer, but just as they were about to lower them the steamer slipped off the reef and disappeared with an angry roar. The water was covered with struggling forms of men and women and then it was ait over. Only fourteen lived. These got into the boats, but were powerless to save themselves as they were without oars. Captain Moore, however, wrenched a foot-board from the bottom of a boat, and with that as a paddle succeeded in working the boat to the island, where the survivors were picked up by the Athabasca.

It is ascertained that there were five cabin and six steerage passengers and forty-four or forty-five of the crew on the steamer Algoma. It is a singular fact she was carrying the lowest number of passengers she has ever had.

### The "Hello" in Court.

By Telegraph to THE BENTHER. WASHINGTON, D. C., November 9.-To-day was set down for the hearing of the telephone case before the secretary of the interior. Secretary Lamar opened the proceedings by stating that nine petitions had been filed. He (Secretary Lamai) pronounced that there should be no discussion to-day on the question of the power of the government to institute a suit to value a patent and that the respective applicants who are movers in this matter submit their cases.

The first case called was that of the Globe Telephone Company. The peunder the impression it related to a system of multiplex telegraph; that Bell's original telephone was in-opertive; that this was admitted by himself; that he could not truthfully claim priority of invention; that the Western Union Telegraph company, contesting certain telephone patents, had entered into contract with the Bell company to compromise their difficulties by which | place Thursday next at 11 o'clock at the Western Union company received twenty per cent of the profits of the bearers will be Edwin Booth, Jno H. telephone company, and that these great corporations had united to compel the people to pay tribute to themtherefore the Globe telephone company prayed the department of iusttce to begin suit to vacate the Bell patent. Mr. Storrs stated that the Bell company had no desire to submit written answer to the petitions; it was sufficient to deny generally everything that had been set out, He asserted that all the allegations material to this investigation were disproved by the papers which the petitioners themselves had presented, and referred to with, perhaps, a few other records from the patent office.

ST Cable to THE SHITTINGS. SYRACUSE, N. Y., November 9. -Wm. Wilbur graduated from the university here on the 24th of last June. On the 26th of the same month, Clara Greenly graduated at the high school. They were secretly married but have not lived together. When he has gone to the house to ask her to live with him, he has been denied admittance. This morning Wilbur climbed over the roof, broke a window and entered his wife's bed-room, with the intention of begging forgiveness and asking Clara to leave her mother and live with him. Clara was not in the room, he went down stairs and found mother and daughter there. The mother ordered him out of the house. Wilbur seized a pair of shears and stabbed them both, but not fatally. In court he pleaded guilty to assault in the second degree and was held for the grand jury. The girl is very pretty. Wilbur is an insurance agent and has a brother in the insane ward of the county house here. An action for divorce has been begun by the girl.

BURMAH. Burmah, or Ava, a country of Further

India, extends from latitude 19 degrees 25 minutes to 28 degrees 15 minutes north, and from longitude 93 degrees 2 minutes to 102 degrees 10 minutes east. It is bounded on the north by Assam and Thibet; east by China; southeast by Anam; south by Laos and Pegu; and on the west by Aracan, Bengal and Assam. Its area is about 200,000 square miles; population about 4,000,000. It is mountainous in the north, with a gentle southward slope, the interior being occupied by wide valleys, lying between ranges proceeding from the Thibetan plateau and drained by the Irrawaddy, the Salwen and other rivers, traversing the country from north to south and flowing and wounded, and don't know how into the bay of Bengal. Every citizen is liable to military service and the Burmese make good soldiers. They resemole the Mongolian rather than the Hindoo type of mankind, and are divided into several distinct tribes, of which the Burmans are the rulers of the country. The Shans, who resemble the Siamese, dwell in the north and east provinces, while the fierce Karens inhabit a hilly district between the Salwen and Sittoung. January. One bottle of Athlophoros relieved my wife who has rheumatism for over four years from all pain, gave her a good appetite and in fact made a strong woman out of a feeble one. I can recommend it. A. B. Tousley, Fort Wayne, Ind.

GET READY

To-Night.

La Fayette's new "roller coaster" at Linwood Park has a vigilant night watchman in ex-Policeman John McGrath, who is careful to see that no daring spirits take surreptitious rides upon the coaster during the hours of darkness, and who is himself a most fearless and gallant rider. Mr. McGrath is a hearty looking man, but yet has had occasion to lament the fact "at "a policeman's lot is not a happy one." truth is Mr. McGrath has suffered from that distressing complaint—rheumatism, but he is no longer afflicted with it. Athlophoros cured him and he is now as well able to chase down any evil-doer and land him behind bolts and bars as he ever was. Being asked as to his rheumatism and cure

Mr. McGrath gave this account: "I was taken with a severe attack of rheumatism in the hip. I suffered much pain and was obliged to quit work entirely. I was helpless so far as walking was concerned and was confined to my bed for six weeks. In my efforts to get relief I used many kinds of medicines and liniments, but they failed to make any change for the better. After trying so many kinds of medicines I was very loath to experiment with any new remedy, but seeing Athlophoros recommended so highly I purchased a bottle. After using the one bottle I was entirely well and able to go to work. Have I had any return of the pains since? None whatever. I have not lost a day's work

Mr. W. B. King, the dealer in sewing machines at the corner of Fifth and Columbia streets, has had an equally satisfactory experience with Athlophoros in curing rheumatism.

It was magical in its effects upon me," he says. "I was first taken with pain in the soles of my feet and in a few hours was not able to walk at all. The rapidity with which the disease spread over my whole system was wonderful. Every bone, muscle and joint in my body gave me the most in-tense pain. My arms were both drawn up, and I could not walk, eat or sleep. I suffered in this way for many weeks. Finally, by the persuasion of a friend who knew of Athlophoros, I was induced to try it. I had taken but a few doses when I had very decided relief. I continued taking the medicine until I had used six bottles, and I

have not had a pain of rheumatism since." Still another resident of La Fayette, Ind., who has used the wonderful remedy with the happiest results is Mrs. A. E. Sherman, of No. 159 Main street, who suffered so severely with sciatic rheumatism that at times she could not walk.

"I tried every kind of liniment, besides many medicines," says Mrs. Sherman, "but could get no relief. I finally said: 'Well, I am going to try this Athlophoros; it is spoken of very highly.' After using about three-quarters of a bottle I began to experience relief. I used about three bottles and have not had any pain since. My mother, Mrs. Lain, who lives with me, is now seventy-seven years old, and for about five years was badly crippled with rheumatism. She was much worse than I; in fact, at one time we thought she would never get well, and more as an experiment than anything else I gave her a quarter of a bottle of Athlophoros. She got some relief even with that small amount and continued using it to the extent of four bottles. She does not have any pain now, but still has some stiffness in her joints."

if you cannot get Athlophoros of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We prefer that you buy it from your druggist, but if he hasn't it, do not be persuaded to try something else, but order at once from us as directed. Athlophoros Co., 112 Wall Street, New York

SENATOR VOORHEES pronounces Judge David Turpie the most intellectual man in the scope of his acquaintance. Turpie, he says, is the only man who ever, as a United States senator, made a national reputation in six weeks.

HON. J. B. STOLL, in the South Bend Times, says: "Hon. A. P. Edgerton, the new civil service reform commissioner, and Hon. J. D. Sarnighausen, of the Fort Wayne Staats-Zeitung, are very close and intimate friends. The latter says in his paper that while Mr. Edgerton is in full accord with the general aim of the civil service law, he is also of the opinion that the rules established by the Eaton commission require considerable modification, and that the law itself needs careful revision. If Mr. Edgerton will inject these ideas into the management of the civil service commission, he will gain the plaudits of practical reformers throughout the country, and can therefore well afford to be criticised by the theorists of the Eatonian school."

Ex-MINISTER TAFT, who has lately returned from Russia, thinks that country is improving and progressing from a business and manufacturing standpoint. The Russians, he claims, actually rival us in grain on the fertile plains of central and southern Russia. If we had not so many railroads to collect and bring to market our grain, he thinks they would even beat us at the business. The Americans have better transportation than the Russians. The latter also have as much petroleum as we, though they have not yet been able to refine it so well, hence it commands only half the price. The Russians put a big tariff on the importation of petroleum and thus keep ours out. They also protect all their manufactures by heavy duties. The manufacturing industry of Russia is growing up under that policy and becoming very large. There is very little American capital in Russia now. The policy of Russia is discouraging, also, to the English, who formerly had a large colony of wealthy traders at St. Petersburg.

There was not a mean or selfish thing in him, and his work was merely a reflex of himself. He was an originator and a compressor. His great merit was in taking a column and boiling is down so as to get it into two lines. His work was in converting ashes into potash. THE movement to confer on the women of China and India the benefits of Western medical science has brought brilliant opportunities within reach of female physicians. Dr. Woodhull, who began to practice her profession the day after her arrival at Foochow last winter, writes that the calls upon her services are more than she can meet. The hospital for Chinese women recently opened at Shanghai, under the charge of American women, is already well filled with patients. Lady Dufferin is President of the association that has been established in India to import skilled women physicians from Europe and America for the purpose of training capable native nurses, midwives, and medical practitioners. Every white physician in Oriental countries is asked almost daily if he cannot prescribe for suffering women without seeing them. Debarred by social customs from consulting men doctors. Oriental women are the victims of great and unnecessary misery. They are thus shut out from the advantages of Western medical art, although they

know its value and desire to avail them-

JUSTICE always falls on somebody in China. A barber in Hankow threatened his assistant with prosecution on the charge of stealing 27 cents, whereupon the accused man took opium. An official investigation was ordered, but the barber bought up the mandarin, who acquitted him, but, as it was necessary to make an example of somebody, ordered the policeman in whose beat the

whipped.

For cold cheek the French woman Euphrasie Mercier, who is under arrest accused of murdering Mile. Menetret, a young lady pensioner, at her house in Villeneuve, takes the prize. While the officers were unearthing the evidences of her crime in the grounds, she calmly plucked pears in their sight, and when a witness rang the door-bell without being admitted, she called pettishly to a detective: "Somebody has rung twice; why don't you let her in? Suppose it was Mlle. Mene-

"TESTIMONY has been introduced," said Mr. Evarts, "showing that during his sickness Jesse Hoyt had suffered from a high-sounding disease, which in plain language is the itch. We have been told that by reason of this itch Jesse Hoyt was incapable of making a will; that his mind was wrecked. If a man's mind is wrecked because he has the itch, what, pray, will become of the great Scotch nation? Why, the whole thing goes by the board! John James Stephens once said of the Scotch: 'Every Scotchman is entitled to an itch in the temple of fame!"

COMPETENT authorities estimate that not more than six per cent. of the digging has been done in connection with the vast enterprise in the hands of the Panama Canal Company. Financially the obligations of the company are said to be \$153,000,000. Engineer Menocal estimates the actual cost of the entire work at \$375,000,000. To raise this sum of money and the annual cash interest, will raise the obligations of the canal to upward of \$600,000,000 before its completion. It would require a Frenchman's flight of fancy to imagine that the Panama Canal can ever pay its expenses, and also a sum sufficient to pay any reasonable rate of interest on the capital and funded debt.

VICTOR HUGO'S coffin, says a Paris correspondent, is an object of much interest to foreign and other excursion. ists visiting Paris. A lamp throws a light on the coffin, and the now defaced, tarnished and moldy crowns which are heaped up around it. All that were made of natural flowers have been thrown away, but they remained long enough to communicate their odor of decay to the others. So far the heaps of floral wreaths have served to hedge in the coffin and keep amateurs of souvenirs from pulling off the cloth upon it. The moldy flowers are often pilfered, and there is a trade carried on outside the Pantheon in cast-off violets which have figured on ladies' bonnets, but which are offered by the venders as coming from Victor Hugo's

THE President has revived a pretty custom at the White House, which in a large measure will make amends for refusing to kiss the babies. A Washington correspondent says: "For the past week there has been a great run of bridal couples at the White House. Yesterday there were twenty and today six couples. There was a custom at the White House many years ago of presenting to each bride who called on the President a few choice flowers. In reading an old book some time ago, the President learned of it for the first time, and he decided to renew it. Orders were given the florist in charge of the conservatory, Mr. Pfiel, accordingly. To receive the flowers, however, the brides must inform the President that they are brides. At least that was the old custom. It is not known exactly how the custom will be carried out this time." Washington, always a popular resort for bridal parties, will become doubly so now.

A Visit to A. K. Mehl's School.

To the Editor of THE SENTINEL: We left home at nine in the morning with a hack containing the following parties: Jerry Klopfenstine and Joseph Klopfenstine, of Leo, Clara Conrad, of Indianapolis, and Lucy Mehl and Amy Miller, of Geshen, Ind. Our journey was slow and tedious on account of the rain and muddy roads, we were compelled to stop at a farmer's residence to obtain shelter from the dashing rain. After dinner we continued our journey to the Hursh school where we spent the afternoon. We found the school in a prosperous condition. The pupils are very diligent workers, and the order was of the very best, all seemed to have their minds on their books.

In the manner of conducting the school the teacher differs from most of the Allen county teachers in regard to calling and dismissing the classes and closing the school. After the school closed for the day, the teacher, A. K. Kehl, joined us, and we traveled the old river road along the St. Joe river to Leo, where we stopped a short time on business. We again resumed our journey homeward where we arrived at a late

Human Calves.

An exchange says: "Nine-tenths of the unhappy marriages result from human calves being allowed to run at large in society pastures." Nine-tenths of the chronic or lingering diseases of to-day originate in impure blood, liver complaint or billiousness, resulting in serofula, consumption (which is but scrofula of the lungs.) sores, ulcers, skin diseases and kindred affections. Dr. Pierce's "Golden Medical Discovery" cures all these. Of druggists.

An editor in Dakota makes affidavit that he has seen a spear of growing grass thirty-four feet long.

I have been afflicted with catarrh for 20 years. It became chronic, and there was a constant dropping of mucous matter from the roof of my mouth. It extended to my throat, causing hourseness and great difficulty in speaking, indeed for years I was not able to speak more than thirty minutes, and often this with great difficulty. I also, to a great extent, lost the sense of hearing in the left ear, and of taste. By the use of Ely's Cream Balm all dropping of mucous has eased and my voice and hearing has greatly improved.—Jas. Diseases are prevalent all over the world.

I am a native of England, and while I was in that country I contracted a terrible blood poison, and for two years was under treat-ment as an out-door patient at Nottingham Hospital, England, but was not cured. I suffered the most agonizing pains in my bones, and was covered with sores all over my body and limb. I had vertigo and deafness, with The Beginning of Sickness.

Monroeville Items.

Correspondence of The Sentinel. Monroe township will hold its first monthly institute, in the high school room at this place, Saturday, November

The semi weekly dance given at the Vinyard rink Friday night was lightly attended. It will soon be a thing of the past.

A young lady teacher of this place, was grossly insulted by a drunken dude from Fort Wayne, while returning from the institute last Friday night. He came here to escort home what he imagined to be his "best girl" but she objected, hence the racket.

THE SENTINEL has the largest circulation here of any paper published. It is

the best weekly paper in the state. A son of Isaac Marquart had his left hand badly mutilated by the explosion of a cartridge used for blasting stumps. The hand was so badly shattered that it necessitated the amputation of the thumb and index finger.

The brick building now occupied by M. Strass as a furniture store, will be adorned with a new front.

Chas. Wickwire and Aaron Pancake will each have a large sale of Short Horn and Durham cattle on the 12th.

Hog cholera is still raging here with great destruction. Mr. Randle lost fifty head out of sixty-two while others lost all of them.

One night last week Adam Caguet caught a number of boys in the act of chopping a large tree in his woods. The boys were out "coon hunting" and were having a high time when Cagnet pounced upon the corporeal raiders and frightened them nearly out of their senses. The next day they righted the wrong by each paying \$1. This should give warning to those who are nightly scouring the woods and falling trees

as such is reported us to be the case. War is still raging in the Foster district in Monroe township, concerning the selection of a teacher by the trustee, contrary to the wishes of a few "hard to please" patrons. It seems to the public, that Sam Scott has hold of the poetical gun, while J. R. McConnehay, the teacher, will be lord of the birch for the next

four months. The people of Monroe township can feel proud of having a neat and model school house. This reflects credit upon the trustee, G. W. Brandberg.

new building is nearing completion. D. | netic Elixir. Try it. A. May, of this place, is the contractor.

The pupils of the Monroeville high school gave a literary entertainment, exhibiting the work of William Cullen Briant, at the Christian church on the occasion of the anniversary of the poet's birth. The little ones did admirably well which reflects credit upon their teachers Professor Walkers and Wm. D.

Joseph Shultz has resigned his position as marshal of this place. During his short stay here as marshal, he has made one of the best officers Monroeville has ever had. He will leave for St. Louis in a few weeks. D. S. Johnson, of the Central hotel, was installed as marshal by the council to fill the vacancy.

D. DeVilbis, of Fort Wayne has ac cepted a clerkship in D. S. Redelsheimer's drug store.

Bill Deivert and Wm McGonegal got into a dispute last Monday night in Trumond Baker's barber shop, on account of a sum of money due McGonegal. Deivert at once became aggravated and struck McGonegal a heavy blow ou the head with a stick of stove-wood, that layed near at hand, causing McGonegal to fall to the floor where he layed in an unconscious condition for some time. Notwithstanding the aid of skillful physicians he suffered intense pain during the entire night. Immediately after the occurrence Deivert was arrested and was released on bail to appear the next day at Shaffer's court, where he was fined \$20 and costs. Prosecutor Dawson came here the next day and issued a warrant and Deivert was rearrested on a charge of murderous assault and battery, and in default of \$300 bail he went to jail to await the action of the grandjury. This will be another interesting case at the

expense of the tax payers. John Monday who lives with his brether-in-law, west of town, was taken last week on authority by Warren Baker, to the county infirmary. It is said that Monday's mental faculties are deranged and he is sometimes very dangerous. Some time ago Monday received a circular for some article, and he imagined it to be a marriage license. He repeatedly stated that he was soon to be married to an accomplished young girl from Dixou, but Mr. Baker told him that his "document" was worthless unless he had it signed by the judge and said that he would accompany him to Fort Wayne and see to it, and it was in this way that he was landed in the infirmary. He once before escaped the officers and went to Van Wert where the officers

there captured and placed him in the

The indications for the lower lake region, as reported by the weather bureau at Washington to THE SENTINEL, are as follows: Generally fair weather. stationary followed by slowly rising temperature, winds becoming variable and generally shifting to southerly.

"Miss Mary Golden, of Fort Wayne, Misses Amelia Kreis and Katie Hewitt, of Lafayette. Herman Tengen, of Dan ville, Ill., Robert McGrath, Henry Gosling and Herman Korty, of Lafayette, composed a party that spent Sunday in the city," says the Logansport Pharos.

Miss Adah Richmond sang for the first time, at Cincinnati, Saturday evening, a new and pretty waltz lullaby entitled "Creep Into Bed, Love," written expressly for her by Mr. M. H. Rosenfeld, author of "Hush, Little Baby, Don't You Cry," and other popular songs. The song is destined to become

one of the popular hits of the day. Yesterday afternoon, Mary Dulin, widow, and administratrix of the estate of John Dulin, brought suit against the Pennsylvania company for \$10,000. The attorneys for the plaintiff are James E. Graham and T. W. Wilson. The complaint charges that on October 21, 1884. Dulin, who was employed as a laborer in the company's Fort Wayne yards, was ordered to assist in moving a freight car, which started suddenly and ran over him, causing death.

A civil suit has been filed against Stephen Hamilton, convicted of rape, at Muncie, by Mrs. Hottinger, asking for \$10,000 damages. Mr. Hamilton will be taken to state prison in a few days, unless ordered to remain to attend the civil suit. Mr. Hamilton is about eighty years of age, a man of great wealth, high social position and a citizen who has enjoyed the respect and esteem of his fellow citizens for three quarters of a century. At the end a widow comes in and with one oath blasts his life and sends him to prison to die. This is pretty hard and the damage suit that follows pretty near tells what the designing woman wants.

Rev. Henry Ward Beecher's eight sermons on "Evolution and Religion" are published in book form. Whatever Mr. Beecher says bears the impress of a strong mind and vigorous thought These eight sermons give his conclusions, as far as he has reached conclusions, on the theory of evolution. As to about seven a day in the Fort Wayne his position on the subject, he says in postoffice and Postmaster Kaough can his preface: "For myself, while finding no need of changing my idea of the Divine personality because of many new here is better than any city in the west | light upon His mode of working, I have hailed the evolutionary philosophy with joy. Some of the applications of its principles to the line of development I have to reject; others, though not proven -and in the present state of scientific knowledge perhaps not even probable-I accept as probable; but the underlying truth, as a law of nature (that is a regu-

cept and use, and thank God for it."

Do not forget Beecher.

Mr. Charles D. Spiegel, for two years with H. N. Goodwin, on Broadway, has accepted a position in Meyer Bros. & Co.'s wholesale department.

"Mr. John Baumgarten, of Fort Wayne, was in the city Sunday, visiting his parents. He returned on the evening train," says the Huntington Herald.

Rev. Henry Ward Beecher was an nounced a passenger on the Pittsburg fast express, due here at 4:40 this afternoon. Quite a number of gentlemen are to meet him at the depot and accompany him to the Aveline house.

A. J. Burrus, the former Fort Wayne youth who shot two women at Chicago. is held for trial in the sum of \$10,000 and has secured attorneys. The women he shot will recover, although at first their wounds seemed fatal.

November 23 is the date fixed for the trial of Jacob Mader, who killed James Anderson in a bar-room row in Wabash last September. It seems to be generally conceded that a verdict of acquittal will be rendered on the ground of An Event Anticipated with Much

A few days ago Toledo was jubilant over the work of enlarging the Wabash railroad shops. This telegram puts the village in mourning: "Orders have again gone out from Wabash headquarters that expenses must again be materially reduced, and yesterday they went into effect at the shops in Toledo and fifty

Mr. Hoyt's other plays, "Bunch of Keys" and "Rag N. Ward's crockery emporium. The Baby" have made great hits. In the "Tin Soldier" are such excellent people as James T. Powers, Amy Ames, victoria Reynolds and others. "Mr. Hoyt, formerly of the Boston Post staff, personally directs the production.

GIVING IT TO US EASY.

Nature is Likely to Give us Mild Winter and Experience Predicts it.

The people regard weather prophets with a great degree of suspicion, but this will not hinder THE SENTINEL from venturing the prediction that this is to be a mild winter. It would be rash for even the signal service to attempt to guess how much warmer this winter will be than last, but the figures upon which a reasonable assumption may be based are at hand. They tell their own story. During the thirteen years that the signal service observations have been made the mean winter temperature has been 32.2° above zero. The years preceding 1883 alternated in crossing this mean up and down. Thus in the winter of 1872-3 the average temperature was 16.9° below the mean for thirteen years; in '74, 12.5° above; '75, 19° below; '76, 21,2° above; '77, 6.5° below; '78, 26° above; '79, 12.4° below; '80. 22.9° above; '81, 17.9° below; '82, 17.3° above: '83, 9.8° below. Instead of going above the mean, as the alternate years had been doing, the winter of '84 fell below; and last winter followed suit, making three winters in succession of colder weather than the average for this climate. Nature is supposed to work equitably, and as she has given this region an overplus of cold weather for three years it may be reasonably expected that she will now turn her attention to restoring the equipoise of heat and cold which have held the thermometer on an average at the

NOT NOW A SECRET.

Interest Announced

To-day.

Some time ago THE SENTINEL referred to the fact that Mr. H. N. Ward had purchased a new and complete assortment of china, queensware and glasses from the best markets of Euope and America. Fort Wayne people have contented themselves reading of these unique household articles, but now, thanks to Mr. Ward's enterprise, the best and most costly articles of china, queensware and glasses can be seen at Mr. H. new stock will be ready for public inspection Thursday and Friday Nov. 19 and 20, and the occasions will be memorable in Fort Wayne. Mr. Ward never does a thing by halves and he has a surprise in store for the people of Fort Wayne and northern Indiana, such as they have not heretofore set eyes on. Mr. Ward's crockery house is on West Columbia street, where his celebrated "dog" stands guard.

## and Coffee.

The Empire Mills, of New York, have opened a store in this city, in the old Mayer House, on Calhoun street, for the purpose of introducing their new brands of Tea and Coffee, which are put up in paper cans; Coffee can and contents, about 3 pounds; Tea can and contents, about 11 pounds. As an extra inducement to purchasers this company will pack in each can of Coffee and Tea a souvenir or present, running in amount from 10c to \$50, consisting of Nickel, Silver and solid Gold Watches, genuine Diamonds in solid Gold Settings and other jewelry. This company has adopted this expensive method so as to thoroughly advertise their goods in Fort Wayne and vicinity in the shortest time possible; but after thirty days this choice Tea and Coffee will be sold wholly on their merits by their agent in Fort Wayne at the same price, same quantity and same quality, but without the souvenirs, the Tea and Coffee being worth at a fair retail value more than the price asked without any regard to the souveneirs. This company is an old and well established one. It has already appointed over fifty agents in the various cities, none of whom are now selling souvenirs per box.

## Is the Fate of Forty-Eight Ship Passengers.

The Algoma Lashed by Furious Waves Against a Reef.

The Captain Details the Drowning of the Struggling People Most Yiridly.

A WATERY GRAVE.

Forty-Eight People Go Down With a Steamer.

PORT ARTHUR, Out., Nov. 10.-A to: rible marine disaster, resulting in the drowning of forty-eight persons and the loss of one of the most valuable passenger steamers on the lakes, was reported last night when the steamer. Athabasea On board the Athahasca were James Moore, commander of the Canada Pacific railway steamer Algoma, two pas sengers and eleven of her crow. They were all that were left of sixty-two per sons that sailed for this port from Owen Sound on the Algoma last Thursday. The captain was hadly injured, the ship's papers were lost and the passenger list could not be obtained.

The following is a

LIST OF THE LOST.

Mr. MacKenzie, purser. Alex Taylor, chief steward, either of Buffalo or Cleveland,

Mr. Jones, steerage, of Scotland.

The other names, comisting of deck hands, firemen, waiters, and others of the crew, cannot be obtained.

Captain Moore says that soon after reaching Lake Superior, the wind began to freshen up from the northwest and as night approached the wind continued to increase in violence and by dark haddeveloped into one of the fiercest and most destructive gales ever experienced on the upper lakes. Before midnight Lake Superior was lashed into a furious seething foam. A great sea swept completely over the struggling steamer. A blinding snow storm set in before morning and it was impossible to see the length of the steamer. The passengers and crew were terrified beyond measure On Saturday morning the Isle Royal was sighted and Captain Moore headed the steamer for Bock harbor. Near the en trance there is a dangerous reef which the steamer struck and came to a full stop. One of the crew reported that the bottom had been punctured and slie was filling with water. The boats were at once got in readiness and all started to leave the steamer, but just as they were about to lower them the steamer slipped off the rect and disappeared with an angry mar. The water was covered with struggling forms of men and women and then it was all Only fourteen lived. These got into the boats, but were powerless to save themselves as they were without oars. Captain Moore, however, wrenched a foot-board from the bottom of a boat, and with that as a paddle succeeded in working the boat to the island, where the survivors were picked up by the Athahanca,

It is ascertained that there were five cabin and six steerage passengers and forty-four or forty-five of the crew on the steamer Algoma. It is a fact she was carrying the lowest number of passengers she has ever had

### FIGHTING FOR WAGES.

The Great Strike of the Nailers,

Pressure, Pa., Nov. 10.—Secretary Wise, of the Western Nail association has been notified by the United Nailer's association of the appointment by the latter body of a conference committee, latter body of a conference committee, ready and willing to meet a similar committee of the manufacturers. The usillers accretary, Chew, says this advance was made in the hope that some action may letakeh at the meeting of the Western Nail association at Cincinnati te-morrow, toward bringing alouit a section of the present strike. The mailers officials are now considering the advisability of establishing a

Burmah, or Ava, a country of Further India, extends from latitude 19 degrees 25 minutes to 29 degrees 15 minutes north, and from longitude 23 degrees 2 minutes to 102 degrees 10 minutes cast. It is bounded on the north by Assam and Thibet; east by China; southeast by Anam; south by Lace and Pegu; and on the west by Aracan, Bengal and Assam, Its area is about 200,000 square miles; population about 4,000,000. It is moun tainous in the north, with a goutle south ward slope, the interior being occupied by wide valleys, lying between ranges proceeding from the Thibetan platean and drained by the Irrawaldy, the Salwen and other rivers, traversing the country from north to south and flowing into the buy of Bengal. Every citizen is liable to military service and the Bur-mese make good soldiers. They resemble the Mongolian rather than the Hindue type of mankind, and are divided into several distinct tribes, of which the Burmans are the rulers of the country. The Shans, who recemble the Sismese dwell in the north and east provinces while the fierce Karens inhabit a hilly district between the Salwen and Sittoning. The ordinary houses are of bamboo and matting, thatched with leaves or grass. The Burmese are Bud-

The Burmah, or Burmese Empire, was founded in the middle of the eighteenth sentury by Alompra, the first sovereign of the present dynasty. The first British dispute with this formulable power in 1785 was amicably adjusted by General Erskine. Hostilities were commenced by the British in 1824, and they tool Rangoon on May 11. The fort and pagods of Syriam were taken in 1825. After a short armistice hostilities were renewed, December I same year, and pursued until the successive victories of the British led to the cession of Arracan and to the signature of peace Feb. 24, 1826. state. passed over this section of country just north of this city, washing away bridges, railroad beds, growing crops and leveling forests and houses for miles. The tornado was accompanied by torrents of rain and appalling electric discharges. It started on the Cahaba river, passed through Dallas, Perry and Bibb counties, leaving a dead waste of forests plantations, houses and villages. Exploring roller parties say list track was half a mile wide. They have gone over forty miles picking up the dead and wounded, and don't know how much longer the track is. Thirteen persons have been found killed outright and forty or fifty dangerously wounded. A number of persons can not be accounted for. Bales of cotton were blown from gin houses and burst and scattered everywhere. A man driving with a load of cotton to the city, has been lost. The cotton and wagon were blown a good quarter of a mile. Negroes are frightened nearly to death and hundle together or squat slone, unclad, in bushes and under fallen trees, stapelied and speechless with fear and superstition, unable to tell where any of their households are. The city is being canvassed for money and subscriptions to bury the death and rolleve the wants of the destitute.

Mr. W. R. King, the dealer in sewing machines at the corner of Fifth and Columbia street, has had an equally satisfactory experience with Athlophors in curing rheumatism.

"It was magical in its effects upon me," he says. "I was first taken with pain in the soles of my feet and in a tew hours was not able to walk at all. The rapidity with which the disease spread over my whole system was wonderful. Every bene, maste and point in my body gave me the most interes pain. My arms were bethfeavanup, and I could not walk, cut or sleep. I suffered in this way for many weeks. Finally, by the persuasion of a friend who knew of Athlophores, I was induced to try it. I had also hot a fine wises when I had very decided relief. I continued taking the medicine until I had used its bottles, and I have not had a pain of rheumatism since."

Hox, J. B. Stoll, in the South Bend Times, says: "Hon, A. P. Edgerton, the new civil service reform commissioner, and Hon. J. D. Sarnighauser, of the Fort Wayne Staats-Zeitung, are very close and intimate friends. The latter says in his paper that while Mr. Edger-ton is in full accord with the general sim of the civil ecrysce law, he is also of the opinion that the rules established by the Eaton commission require considerable medification, and that the law itself needs careful revision. H Mr. Edgerton will inject these ideas into the management of the civil service commission, he will gain the plaudits of practical reformers throughout the country, and can therefore well afford to be criticised by the theorists of the Estonian echool."

Ex-Ministen Tort, who has lately returned from linesis, thinks that country is improving and progressing from a business and manufacturing standnoint. The Russians, he claims, actually rival us in grain on the fertile plains of central and southern Russia. If we had not so many railroads to collect and bring to market our grain, be thinks they would even best us at the business. The Americans have better transportation than the Russians. The latter also have as much petroleum as we, though they have not yet been able to refine it so well, hence it commands only half the price. The Russians put a hig tariff on the importation of petroloam and thus keep ours out. They also protect all their manufactures by heavy duties. The manufacturing industry of Russia is growing up under that policy and becoming very large. There is very little American capital in Russia now. The policy of Russia is discouraging, also, to the English, who formerly had a large colony of wealthy traders at St. Petersburg.

COMPRESSE authorities estimate that not more than six per cent, of the digging has been done in connection with the vast enterprise in the hands of the Panama Canal Company. Financially the obligations of the company are said to be \$153,000,000. Engineer Menocal estimates the actual cost of the entire work at \$375,000,000. To raise this sum of money and the annual cash interest, will raise the obligations of the canal to upward of \$600,000,000 before its completion. It would require a Frenchman's flight of fancy to imagine that the Panama Canal can ever pay its expenses, and also a sum sufficient to pay any reasonable rate of interest on the capital and funded debt.

Victor Hugo's outin, says a Paris porrespondent, is an object of much interest to foreign and other excursion. ists visiting Paris. A lamp throws a light on the coffin, and the now defaced, tarnished and moldy crowns which are heaped up around it. All that were made of natural flowers have been thrown away, but they remained long enough to communicate their odor of decay to the others. So far the heaps of floral wreaths have served to hedge in the coffin and keep amateurs of souvenirs from pulling off the cloth upon it. The moldy flowers are often pilfered, and there is a trade carried on outside the Pantheon in cast-off violets which have figured on ladies bonnets, but which are offered by the vanders as coming from Victor Hugo's

THE President has revived a pretty mstom at the White House, which in a large measure will make amends for refusing to kiss the babies. A Washington correspondent says: "For the past week there has been a great run of bridal couples at the White House. Yesterday there were twenty and today six couples. There was a custom at the White House many years ago of presenting to each bride who called on the President a few choice flowers. In reading an old book some time ago, the President learned of it for the first time, and he decided to renew it. Orders were given the florist in charge of the conservatory, Mr. Pfiel, accordingly. To receive the flowers, however, the brides must inform the President that they are brides. At least that was the old custom. It is not known exactly how the custom will be carried out this time." Washington, always a popular resort for bridal parties, will become doubly so now.

A Visit to A. K. Mehl's School To the Editor of THE SESTINES:

We left home at nine in the morning with a back containing the following parties: Jerry Klopfenstine and Joseph Klopfenstine, of Leo, Clara Courad, of Indianapolis, and Liley Mehl and Amy Miller, of Geshen, Ind. Our journey was slow and tedious on account of the rain and muddy reads, we were compelled to stop at a farmer's residence to obtain shelter from the dashing rain. After dinner we continued our journey to the Hursh school where we spent the stermon. We found the school is a prosperous condition. The pupils are ery diligent workers, and the order was of the very best, all seemed to have their minds on their books.

In the manner of conducting the school the teacher differs from most of the Allen county teachers in regard to calling and dismissing the classes and closing the school. After the school closed for the day, the teacher, A. K. Nebl, joined us, and we traveled the old river road along the St. Joe river to Leo, where we stopped a short time on business. We again resumed our journey homeward where we arrived at a lat-J. K.

Hog cholers is still raging here with great destruction. Mr. Randle lost fifty head out of sixty-two while others lost all of them.

One night last week Adam Cagne caught a number of boys in the act of chopping a large tree in his woods. The boys were out "coon hunting" and were having a high time when Cagnet pounced upon the corporeal raiders and frightened them nearly out of their sen

sea. The next day they righted the wrong by each paying \$1. This should give warning to those who are nightly couring the woods and falling trees as such is reported us to be the case.

War is still raging in the Foster district in Monroe township, concerning the selection of a teacher by the trustee contrary to the wishes of a few "hard to please" patrons. It seems to the public, that Sam Scott has hold of the poetical gun, while J. R. McConnebay, the teach-er, will be ford of the birch for the next four months.

The people of Mouroe township can eel proud of having a next and model school house. This reflects credit upon he trustee, G. W. Brandberg,

The brick work on Wm. Dickerson new building is nearing completion. D. A. May, of this place, is the contractor.

The pupils of the Monroeville high school gave a literary entertainment, exhibiting the work of William Cullen Briant, at the Christian church on the ession of the anniversary of the poet's birth. The little ones did admirably well which reflects credit upon their teachers Professor Walkers and [Wm. D.

Joseph Shultzhas resigned his position as marshal of this place. During his short stay here as marshal, he has made one of the best officers. Monroeville, has ever had. He will leave for St. Louis in a few weeks. D. S. Johnson, of the Central hotel, was installed as marshal by the council to fill the vacancy.

D. DeVillan, of Fort Wayne has ac cepted a clerkship in D. S. Redelsheimer's drug store.

Bill Deivert and Wm McGonegal got into a dispute last Monday night in Trumond Baker's barber shop, on ac-count of a sum of money due McGonegal. Deivertat once became aggravated gail and struck Methonegal a heavy blow on the head with a stick of stove wood, that layed near at hand, causing McGonegal to fall to the floor where he layed in an unconscious condition for some time. Notwithstanding the aid of skillful physiciates he suffered intense pain during the entire night. Immediately after the occurrence Deivert was arrested and was released on bail to appear the next day at Shaffer's court, where he was fined \$20 and costs. Prosecutor Dawson came here the next day and issued a warrant and Deivert was rearrested on a charge of murderous assault and battery, and in default of \$300 bail he went to pail to await the action of the grand jury. GIVING IT TO US EASY.

Nature is Likely to tilve us a Mild Winter and Experience Predicts it.

The people regard weather prophets rith a great degree of suspicion, but this will not hinder THE SENTINEL from renturing the prediction that this is to be It would be rash for even the signal service to attempt to guess how much warmer this winter will be than last, but the figures upon which a reasonable assumption may be based are at hand. They tell their own story. During the thirteen years that the signal service observations have been made the mean winter temperature has been 32.25 abuve zero. The years preceding 1883 alternated in crossing this mean up and down. Thus in the winter of 1872-3 the average temperature was 16,9° below the mean for thirteen years; in 12.5° above; '75, 19° below: '76, 21,2° above; '77, 6.5° below; '78, 26° above; '79, 12.4° below; '80, 22.9° above; '81, 17.9° below; '82, 17.3° above: '83, 9.8° below, lastead of going above the mean, as the alternate years had been doing, the winter of '84 fell below; and last winter followed suit, making three than the average for this climate. Nature s supposed to work equitably, and as the has given this region an overplus of add weather for three years it may be cold weather for three years it may be reasonably expected that she will now turn her attention to restoring the equi-pose of heat and cold which have held the thermoneter on an average sat the freeding point for mony years past.
